

THE MOTO GUZZI STORY

**Racing and production models
from 1921 to the present day**

IAN FALLOON Foreword by Umberto Todero

THE MOTO GUZZI STORY

The story of Moto Guzzi is one of survival. As one of Italy's oldest and most legendary marques, Moto Guzzi, established in 1921, rose to the height of success during the 1930s, and again in the 1950s, when they dominated 250 and 350cc Grand Prix racing. Under the control of the Trident Rowan Group, Moto Guzzi is once again on the verge of a new chapter in that story of survival. The next century will see the launch of a new and exciting range of motorcycles that could mark a return to the glory days. Here, leading motorcycle author and photographer, Ian Falloon, provides a comprehensive history of the marque with all racing and production models described, analysed and illustrated.
